	misses?	points)		months and a completed investigation provided, thank you.  Meeting minutes are required that validate that investigation findings/incidents are discussed with staff.
5	How do you manage the safety of sub-contractors/contractors you engage, or manage?	Not Applicable		You have indicated that your company does not engage or manage sub-contractors/contractors therefore this question has been marked as not applicable.
6	Are you and your workers trained and competent for all aspects of the work you carry out?	Current training including higher-level learning, competency and/or years of experience (15 points)	15/15	Evidence showing current training and competency assessment has been provided, thank you.
7	How do you record hazards and risks in your workplace?	Risk register with initial and residual risk assessment but no review (20 points)	20/25	As the requirement for this question is a master risk register it needs to include the risk assessment of an extensive array of hazards. It should include hazards from all areas of the workplace. Workplaces can include offices, workshops, warehouses, vehicles, mobile plant, or any other area where work is carried out. Consider also, the different hazard types, such as physical, ergonomic, chemical, biological, and psychosocial.  Extra lines can be added to your master risk register by placing the mouse cursor in the bottom right hand cell of the table and pressing the tab bar on your keyboard.
8	What workplace inspections do you carry out?	Regular inspections including communication back to workers (15 points)	15/15	Regular workplace inspections provided, including communication back to workers, thank you.
9	How do you plan for and manage high-risk or notifiable work?	Methodology, training, communication, and WorkSafe notification provided (15)	15/15	Evidence of a high risk methodology with all the required elements has been provided, thank you.
10	How do you monitor the health of workers who are, or may have been exposed to workplace health hazards?	Not Applicable		The purpose of Health Monitoring is to determine if workers are experiencing health effects from potential exposures. Health monitoring can also confirm that control measures are preventing harm. Please consider noise, dust, biological, fumes, vapors, vibration, UV exposure etc. As the PCBU you will need to know if any health hazards exceed the

				<p>workplace exposure/biological exposure indices. (standards) or if your workers health is being harmed because of health hazards at work.</p> <p>NB - If you believe that the standards are not exceeded, please provide an in-depth risk assessment that has been completed by a suitably qualified professional.</p> <p>Please provide any of the following evidence:</p> <ul style="list-style-type: none"> <li>A report, letter or document from the health monitoring provider that shows pre-employment/baseline and/or regular testing have been carried out. If the report states that the testing is baseline only, it will be marked as such.</li> <li>Reports, letters or documents from two occurrences of testing (this will be dependent on your monitoring frequency) from your health monitoring provider.</li> </ul> <p>NB– names of personnel tested can be redacted for privacy reasons.</p> <p>If you are not certain if this is applicable to your business, we recommend that you contact an occupational health practitioner for expert advice.</p>
11	If you use or store hazardous substances, products or materials, please provide evidence of how you manage this aspect of your business?	Some hazardous substance records provided (10 points)	10/15	<p>Procedure and inventory provided, thank you.</p> <p>Two current SDS are required. Two are out of date and one doesn't include all of the information that is required to within a SDS. Current SDS should be available from your supplier of the substances that you use.</p> <p>Evidence of staff training in the safe use of the substances in their workplace is also required. Training can be formal (certificates/cards) or informal (detailed training content and worker sign off is required as evidence). Informal training needs to include these components:</p> <ul style="list-style-type: none"> <li>the health risks and safety issues associated with the</li> </ul>

				hazardous substances being handled <ul style="list-style-type: none"> <li>• how to safely use, handle, manufacture, store and dispose of the substances.</li> <li>• the safe use of any associated equipment, including personal protective equipment.</li> <li>• actions to be taken in an emergency</li> </ul>
12	How does your company ensure a mentally healthy workplace?	Not Applicable		Please note that this is a new question in the assessment, which is non-scoring. As a result, the final score is not impacted. If you do not have a policy or procedures in place to manage this, you can download a policy from the SiteWise website to use as a starting point. <a href="https://sitewise.co.nz/wp-content/uploads/2024/04/SiteWise_DownloadPolicy_Doc_v3-1.pdf">https://sitewise.co.nz/wp-content/uploads/2024/04/SiteWise_DownloadPolicy_Doc_v3-1.pdf</a>
13	How does your company manage environmental sustainability?	Not Applicable		Thank you for your document. Please note that this is a new question in the assessment and is currently non-scoring. Therefore your total score is not impacted.
14	Has your company been investigated by Work Safe NZ, Civil Aviation or Maritime NZ in the last 5 years?	Not Applicable		Company has advised that no investigations by Work Safe NZ, Civil Aviation or Maritime NZ have been carried out in the last 5 years.

### ASSESSOR'S OVERALL COMMENTS

Thank you for submitting your first SiteWise Assessment and congratulations on achieving SiteWise Green in your first assessment submission.

In your first year of SiteWise registration you are afforded 3 attempts at the assessment so that you can learn the requirements through assessor feedback and have the opportunity to improve your score should you wish to do so. These assessment opportunities also give the assessor the ability to ask questions and seek clarity on the details of the work you undertake.

Assessor comments are left at each question that indicate what further evidence is required to improve the score, please read the assessor comments and the SiteWise assessment guidance prior to attaching additional evidence and resubmitting your assessment.

SiteWise now have a suite of templates available on our website [https://sitewise.co.nz/wp-content/uploads/2023/11/SiteWise\\_PanIndustry\\_Templates.pdf](https://sitewise.co.nz/wp-content/uploads/2023/11/SiteWise_PanIndustry_Templates.pdf) - please feel free to use these to enhance your evidence. Great start, regards G. Cleary..

<b>TOTAL SCORE</b>		<b>111 out of a possible 140</b>
<b>TOTAL SCORE</b>		<b>79%</b>

This report has been prepared by SiteWise for the named Company using our professional judgment based on the information provided by the Company. SiteWise have accepted comments and reviewed documentation provided by the Company. The accuracy of the information provided has not been verified. SiteWise does not accept any responsibility for the accuracy or completeness of the information supplied, or how it is used by either the Company or any other organisation or individual with access to the report. This report provides a view as to the potential state of various aspects of the Company's health and safety management systems and their application. This assessment has been carried out in the context of a prequalification process not an in-depth audit or review.
